

SAT Practice Test 1

Reading and Writing — All Questions

Name: _____ Date: _____ Score: _____ / 54

Section 1, Module 1: Reading and Writing (27 Questions — 32 Minutes)

1

The boss said to _____. The rain made the work impossible, and half the materials hadn't been delivered on time. He was too frustrated to think!

Which choice completes the text with the most logical and precise word or phrase?

- A) do what you can
- B) start the work
- C) appreciate the sunlight
- D) call it a day

2

Emily had _____ about being invited to Kayla's house. The last time they hung out it hadn't gone very well. In fact, Emily had stormed out angrily after Kayla made some rude comments.

Which choice completes the text with the most logical and precise word or phrase?

- A) detainments
- B) territories
- C) reservations
- D) anticipation

3

The base engineering degrees—mechanical, electrical, chemical, and civil—are common enough that graduates can be found working in many industries. However, _____ who wants to earn a higher degree or advance quickly after graduation may find that competition is fierce. As such, someone who obtains a higher degree is more likely to be promoted.

Which choice completes the text with the most logical and precise word or phrase?

- A) everywhere
- B) compensation
- C) employees
- D) reimbursement

4

The notes of a test taken by female alumni were first incorporated into tests in the 1960s, and were incorporated into the National Highway Safety and Traffic Administration's (NHTSA) crash tests. In 2011, female dummies were adjusted in an attempt to make the difference in crash data—that is, just a connection model of the male dummy _____ to account for the average difference.

Which choice completes the text with the most logical and precise word or phrase?

- A) augmented
- B) built up
- C) scaled down
- D) abbreviated

5

Psychological researchers should be more modest about the certainty of data that involves human behavior. After all, human behavior is more difficult to _____ measure than data in other scientific fields like temperature or velocity.

Which choice completes the text with the most logical and precise word or phrase?

- A) impulsively
- B) subjectively
- C) ironically
- D) objectively

6

Nobody wants to be the only person not watching the latest trending show. Because of this, advertisers put considerable resources into television advertising. In 2021, U.S. companies spent an estimated \$70 billion in television ads, and this is before we take into account digital media. When we also look at other mediums of advertising like websites, cookies, and certain social media, "sponsored" ads—the spending figures become even larger.

Which choice best describes the function of the underlined sentence in the text as a whole?

- A) To regulate the process by which advertisers understand consumer preference
- B) To critique a common perspective on the ethics of marketing
- C) To demonstrate the enormous financial scale of television advertising
- D) To offer a comprehensive analysis of digital alternatives

7

The following text is from Walt Whitman's 1891 poem "A Promise to California." The poem was written in the aftermath of the U.S. Civil War, when the country was trying to heal its emotional wounds.

*A promise to California,
Also to the great Pastoral Plains, and for Oregon:
Sojourning east a while longer, soon I travel toward you, to remain, to teach robust
American love,
For I know very well that I and robust love belong among you, inland and along the coast,
For These States tend inland, and toward the
Western Sea—and I will also.*

Which choice best states the main purpose of the text?

- A)** It describes how the United States has endured tensions between its northern and southern territories.
- B)** It frames a complaint between several U.S. states about unequal treatment.
- C)** It features several perspectives and economic analyses of westward expansion.
- D)** It describes a plan for national harmony by expressing love for the entire country.

8

The following text is adapted from F. Scott Fitzgerald's 1920 novel *This Side of Paradise*. The novel opens with the following semi-autobiographical character introduction of Fitzgerald's protagonist, Amory Blaine:

"Amory," his mother always encouraged gently.
"Dear, don't think of getting out of bed. I've always suspected that, early in life, this makes one nervous. Childhood is having your breakfast brought up."

Amory's relationship with his mother is best described as:

- A)** traditionally pleasant
- B)** mutually disrespectful
- C)** blandly overprotected
- D)** cold and distant

9

An English professor analyzes the 1917 poem titled "The River Merchant's Wife: A Letter" by Ezra Pound. The professor claims the poem contrasts the narrator's childhood innocence with her desperation and loneliness as an adult. She mentions that the poem combines vivid descriptions of the natural world in conjunction with her departed husband.

Which quotation from the poem most effectively illustrates the claim?

- A) "While my hair was still cut straight across my forehead / I played about the front gate, pulling flowers."
- B) "You went into far Ku-to-en, by the river of swirling eddies, / And you have been gone five months."
- C) "If you are coming down through the narrows of the river Kiang, / Please let me know beforehand."
- D) "The leaves fall early this autumn, / The paired butterflies are already yellow with August."

10

Which choice most effectively uses data from the table to complete the example?

Crop	Yield (Unit/Acre)	Nitrogen Removal (Pounds/Acre)
Barley	50	30
Corn	150	135
Soybeans	40	116
Wheat	30	42
Corn Silage	15	87

- A) Barley, because it has a relatively low rate of nitrogen removal.
- B) Corn, because it has the highest yield per acre among the crops listed.
- C) Wheat, because it has a relatively low rate of nitrogen removal.
- D) Soybeans, because they remove a moderate amount of nitrogen.

11

A survey of medical doctors indicated that 35% of them prefer to work close to the community of patients they treat. Cities with unlimited exposure to business generate life satisfaction among residents greater than areas with limited resources. States with tort reforms in place saw 20% more medical practices relocate to their remote areas than states without such reforms.

Which of the following findings, if true, would best support Erica's overall argument as presented in the text?

- A) A survey of medical doctors indicated that 35% of them prefer to work close to the community of patients they treat.
- B) Mortgage payments for the average American homebuyer increased in the immediate aftermath of the recession.
- C) States with tort reforms in place saw 20% more practices relocate to their territories.
- D) The higher physical wall spaces make them more viable than land-based cores.

12

"An Encounter" is part of James Joyce's 1914 short story collection *Dubliners*. A young, unnamed narrator searches for excitement beyond the constraints of daily routine. As English teachers who follow the intellectual requirements of his school could best be described as "half-hearted"—

Which choice most logically completes the text?

- A) the narrator concludes that routine is comforting and resolves never to leave home.
- B) the narrator's desire for adventure is contrasted with his realization that true experience is difficult to find.
- C) the narrator expresses gratitude toward his English teachers for their structured approach.
- D) the story implies that rebellion against convention always leads to personal growth.

13

Many studies suggest that while exercising and having a healthy diet can drastically reduce the concentration of cholesterol in our blood, genes play a crucial role in an individual's risk of cardiovascular disease. The strong role of genetics is seen in polar bears. Polar bears are among the most fat-obsessed members of the animal kingdom, yet they do not experience any cardiovascular complications. About half of a polar bear's weight is fat and its blood cholesterol levels are high enough that they would cause serious cardiovascular disease in humans; even so, _____

Which choice most logically completes the text?

- A) polar bears have a varied diet despite the harsh environments in which they live.
- B) heart attacks are not a concern for polar bears.
- C) diet issues can explain cardiovascular disease.
- D) polar bears are equally susceptible to serious cardiovascular disease.

14

As Mendeleev assembled the periodic table, he had noticed several gaps in the pattern of properties which—cleverly—he hypothesized to be as-yet undiscovered elements. Apart from reserving a spot on the table for these elements, however, he also had specific predictions about their properties as well. Several years later, the _____ discovery of some of these elements confirmed Mendeleev's predictions and solidified the periodic table's credibility.

Which choice most logically completes the text?

- A) His conclusions weren't successful; instead Mendeleev's applications to zoological and biological studies remained unverified.
- B) Mendeleev's successful predictions, followed by discoveries of actual elements, demonstrated the periodic table quickly became a standard reference tool in the study of chemistry.
- C) His consequences were advanced: Mendeleev was primarily a representation.
- D) The periodic table's credibility quickly became a standard reference tool.

15

Birdfeeders attract squirrels and chipmunks. There are several methods for keeping them away from birdfeeders. One common method is to put the birdfeeder on a pole at least five feet away from trees and add a _____

Which choice most logically completes the text so that it conforms to the conventions of Standard English?

- A) baffle, a cone-shaped device that prevents squirrels from climbing the pole.
- B) baffle a cone-shaped device that prevents squirrels from climbing the pole.
- C) baffle; a cone-shaped device, that prevents squirrels from climbing the pole.
- D) baffle. A cone-shaped device, that, prevents squirrels from climbing the pole.

16

In a situation where CPR is being administered in a public space, oftentimes no one calls 911 because they assume someone else already _____

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) has.
- B) had.
- C) have.
- D) are.

17

Today, the concept of the high school rock band of making music out of something equally impulsive _____ yet students still have lofty dreams of social media.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A)** is out of style a bit.
- B)** is out a bit of style.
- C)** is a bit out of style.
- D)** is bit a out of style.

18

The possibility of deconstructing a physician's assistant role allows students to become health care professionals in the medical field and the associated student debt.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A)** help.
- B)** helping.
- C)** helped.
- D)** helps.

19

Rodents only make up a portion of a bat's diet. Servals will also use their large ears to listen carefully for the hum of bird wings overhead or the buzz of an insect nearby.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A)** served, did.
- B)** served did.
- C)** serves, did.
- D)** served's diet.

20

George Balanchine, the first artistic director of the New York City Ballet, was the prolific choreographer of many _____ them the ballets "Jewels" and "Cabin in the Sky."

Which choice completes the text so that it conforms to the conventions of Standard English?

- A)** works among
- B)** works, among
- C)** work, among
- D)** works. Among

21

Even in this short life, Comaneci managed to make an enduring difference. In his wake, Native Americans are revising, moving away from strict rules that had governed traditional forms and into a new space where traditional styles and concepts could be more expressive by incorporating modern ideas and implications.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) Art historians that started with Cezanne and the resurgence and change in Native American art to a movement—this started with Cannon.
- B) Art historians that traced the resurgence and change in Native American art to a movement that started with Cannon.
- C) Art historians have traced the resurgence and change in Native American art to a movement that started with Cannon.
- D) Art historians traced, the resurgence and change in Native American art.

22

Melodies are so loved that people will listen to them even when they are not trying to concentrate on other things. Because melodies are so universally loved, they attract people who will dance to them, and besides these things, will seek out their vibrations.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) These two things (the melodic notes and the beats), come together.
- B) These two things, (the melodic notes and the beats) come together.
- C) These two things (the melodic notes and the beats) come together.
- D) These two things, the melodic notes and the beats come together.

23

Technology has transformed how job seekers should present their qualifications to prospective employers. _____ the old paper resume would be one or two pages, your online career profile can be much more thorough.

Which choice completes the text with the most logical transition?

- A) Whereas
- B) Since
- C) Moreover
- D) Because

24

Many people assume that success in one area of life guarantees happiness in all others. _____, research has shown that individuals who achieve great professional success often report lower levels of personal satisfaction than those with more modest careers.

Which choice completes the text with the most logical transition?

- | | |
|------------------------|-------------------------|
| A) Unexpectedly | B) Paradoxically |
| C) In contrast | D) Ironically |

25

While conducting research, a student took these notes:

- Gojya monks, also known as Marathon monks, are a Buddhist group in Japan.
- Each monk, over seven years, walks around 27,000 miles.
- Toward the end of the seven years, the monks will walk up to 52 miles per day.
- The grueling physical demands of completing this task on little food or sleep have proved to be an extremely challenging discipline.

The student wants to emphasize the physical demands of being a Gojya monk. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- | | |
|--|--|
| A) Gojya monks sometimes walk up to 25 miles per day, a task that many people might find challenging. | B) Gojya monks walk up to an incredible 52 miles per day on very little food and sleep. |
| C) Those who want to be monks must dedicate straight years of their lives to this challenge. | D) While the spiritual introspection might be psychologically burdensome, the public recognition makes the work worthwhile. |

While researching a topic, a student has taken the following notes:

- There are many high- and low-tech ways of implementing sustainable agriculture.
- Silt traps prevent agricultural run-off from reaching the soil.
- Selective planting of plants like rice can regenerate the soil and reduce waste run-off.
- Companion planting involves planting varieties closer together to increase the efficiency with which the plant uses nutrients in the soil.
- Slower mulching uses fewer plant materials to reduce waste.

The student wants to suggest a low-tech way of implementing a sustainable agricultural practice. Which choice most effectively uses relevant information from the notes?

- A)** Factory manufacturing of salt traps can prevent river pollution. **B)** When two companion plants are grown both become healthier.
- C)** Silt traps should utilize gene editing to detect the presence of mites. **D)** Slower mulching uses fewer plant materials to reduce waste run-off.

While researching a topic, a student has taken the following notes:

- Offshore wind farms are an increasingly viable source of renewable energy.
- The average wind speed offshore is typically greater than on land since there are fewer geographical obstacles.
- Wind farms can often be placed relatively close to urban coastal areas, reducing the distance needed for electricity transmission.
- While initially more expensive than land-based farms, offshore farms provide stability.

The student wants to point out a reason why offshore wind farms are viable. Which choice most effectively uses relevant information from the notes?

- A)** Stability of offshore wind farms provides the greatest technical advantage over land-based ones. **B)** The average offshore typically physical wall spaces make them more viable.
- C)** Wind farms are more expensive than land-based cores. **D)** The higher average wind speeds offshore, combined with fewer geographical obstacles, make them viable for consistent energy production.

Section 1, Module 2: Reading and Writing (27 Questions — 32 Minutes)

1

We rarely pause and reflect on the role that chemistry plays in determining the chemistry of our food. But the same food for thought, in our food will help us to become better cooks. Isn't that the same food for thought?

As used in this text, what does the phrase "food for thought" most nearly mean?

- A) An appetizing situation
- B) A basis for resentment
- C) A plan for actionable change
- D) Something worth considering

2

Despite the wide applicability of the ABC-X model, it has faced critiques of its usefulness. One of the major critiques is its focus on serious stressors and the accessibility to smaller, everyday stressors. Another limitation is its inability to consider how multiple stressors may affect the current stressor situation.

Which choice completes the text with the most logical and precise word or phrase?

- A) drawback
- B) assessment
- C) trauma
- D) rumination

3

Tests should operate as an assessment of what is practiced daily inside the classroom. Classroom teachers who teach to well-written standards _____ that students are prepared for the next grade level.

Which choice completes the text with the most logical and precise word or phrase?

- A) assure
- B) ensure
- C) resource
- D) measure

4

A folktale may enter a city or village's population's day-to-day life. Possibly, they may end up predicting a story: a fable, a dance, a club, or even a rally. When looked at closely, it generally turns out to practice what was _____ to them.

Which choice completes the text with the most logical and precise word or phrase?

- A) exuberant
- B) insignificant
- C) substantive
- D) enthusiastic

5

In the 1800s, DDF was banned from being used because of its effects on wildlife. Once its comeback by 2010, those bans were already beginning their comeback. Because the use of it had begun before, its _____ was slow.

Which choice completes the text with the most logical and precise word or phrase?

- A) rigors
- B) excursions
- C) hygienics
- D) resurgence

6

Studies also show that young children who learn multiple languages at one time, with the critical teaching available in schools, would be more likely to reach an intermediate level of communicative competence in multiple languages.

Which choice best states the main purpose of the text?

- A) To contribute to the reader's study of a specific world language to become more culturally aware.
- B) To provide an evidence-based argument in favor of early learning of multiple languages.
- C) To suggest a curriculum for graduate-level studies in multiple-language cognition.
- D) To argue that the biological obstacles to learning language at an early age are difficult to overcome.

7

Text 1: Film star Charlie Chaplin was much more than a movie entertainer. In his 1926 film *The Great Dictator*, Chaplin delivers a heartfelt, impassioned speech in the historical context in which the dictator was finally making a commentary on human kindness.

Text 2: Stephen Spielberg is a master of cinematic technique: the close-up on a wide range of terms.

Based on the texts, what would the critics in Text 2 most likely say about Chaplin's speech as described in Text 1?

- A)** The emotional response it evokes is well-earned.
- B)** It is overly focused on political matters and ignores artistic technique.
- C)** Without a vocal accompaniment, a silent film cannot be judged.
- D)** Attempts to prompt a visceral reaction to what is on the screen are unwarranted.

8

The following text is from Willa Cather's 1918 novel *My Antonia*.

When Jim was still a boy obscure around New York, life for him was particularly interesting, especially with the daughter of a distinguished man.

Based on the text, the narrator most likely believes that Jim married his wife:

- A)** out of a love for her intellect.
- B)** because of professional ambition.
- C)** due to his sincere love for her.
- D)** given her sympathy for his poverty.

9

The following text is adapted from Oscar Keane's 1894 work. "The art of books. In this story, a group of gentlemen gather after dinner to discuss what they think the future holds."

Based on the text, the narrator believes that the impact of printing on history to the time period when the article was written could be described as:

- A)** extremely significant.
- B)** largely irrelevant.
- C)** antiquously progressive.
- D)** uniformly multiplistic.

10

Author Mary Shelley composed a novel called *The Last Man* in 1826. The narrator of this story suggests that the greatest obstacle to his father's success is an inability to follow through on his commitments.

Which quotation from *The Last Man* most effectively illustrates the claim?

- A) "During the short years of droughtless youth, he was ached by the high, hired millers of the day."
- B) "The king marched; and the hungry princes of Austria floated with haste eyes on his delicacies."
- C) "With the quick sensibility peculiar to his temperament, he perceived his power fit; his good resolution, most romantic; his promises, vast."
- D) "The fond habit of gambling, which fully possessed him, falsely, in all his good resolutions, his sovereign."

11

Meteorologists in the Northern Hemisphere have summarized typical tornado data by observing where tornadoes most commonly form.

Which choice most effectively uses data from the chart to complete the statement? (See bar chart: U.S. Tornado Averages by Month, 1991–2010)

- A) middays in the summer.
- B) eighteens in the springtime.
- C) fall and winter months.
- D) most common in the summer.

12

"The Social Contract" is a 1762 treatise of political philosophy by Jean-Jacques Rousseau. Despite the unselfish desire in which the work was written, Rousseau advocated a social cohesion.

Which quotation from "The Social Contract" most effectively illustrates the claim?

- A) "Man was born free, but everywhere he is in chains."
- B) "Each individual, in contracting, also recovers all that he has given."
- C) "The individual member alienates himself totally to the whole community together with all his rights."
- D) "Each individual directly loses the contractual freedom."

13

Economists have observed that during times of economic recession, central banks tend to lower interest rates to help make the cost of borrowing loans less expensive.

Which choice most effectively uses data from the chart to support the economists' hypothesis? (See line chart: 30-Year Fixed Rate Mortgage Average in the U.S.)

- A) The rate stayed fairly constant during the recession.
- B) The rate decreased to approximately 3% by 2021 in the aftermath of the recent recession.
- C) Mortgage payments for the average homebuyer increased immediately after the recession.
- D) U.S. 30-year fixed mortgage rates generally decreased through 2022 to below 3 percent.

14

An area in southern Ohio has been undergoing widespread land-use change over the past two decades. New apartment construction complexes are replacing the forests.

Which finding, if true, would most directly support Group 2's hypothesis?

- A) Areas in northern Ohio have undergone widespread use changes making it necessary for Species X to relocate.
- B) Over the past two decades there has been an increase in insect-based pollutants throughout the southern Ohio region.
- C) Some predators to the wild Species X in southern Ohio has increased in recent years.
- D) The number of natural predators of Species X in southern Ohio has increased.

15

The mite reproductive process causes sterile worker bees and beekeepers alike to treat mite infections. _____

Which choice most logically completes the text?

- A) the queen bee will have the resilience to overcome any infestation.
- B) exceeds the number of drone bees in the colony.
- C) the number of worker bees in a colony exceeds the number of drone bees.
- D) the mites reproduce at a rate that makes them very difficult to get rid of.

16

Someone with a mastery of problem-solving approaches was an expert in particle physics and contributed to the Challenger investigation: _____ theoretical physicist, Richard Feynman.

Which choice completes the text so that it conforms to the conventions of Standard English?

- | | |
|--|--|
| A) American theoretical physicist, Richard Feynman, | B) American, theoretical physicist, Richard Feynman |
| C) American theoretical physicist Richard, Feynman, | D) American, theoretical physicist Richard Feynman. |

17

When taking out a loan, the rate paid is key. It is important to understand the differences between fixed and adjustable _____, which can change over time.

Which choice completes the text so that it conforms to the conventions of Standard English?

- | | |
|---|--|
| A) interest rates, that remain constant. | B) interest rates, which remain constant. |
| C) interest rates which remain constant. | D) interest rates; which remain constant. |

18

This method _____ for the old painting to be preserved under the varnish, but for the painting to have a "face lift."

Which choice completes the text so that it conforms to the conventions of Standard English?

- | | |
|------------------------------|-----------------------------|
| A) allowed | B) would of allowed |
| C) would have allowed | D) will have allowed |

19

For most students, social media is just a part of their everyday experience. They view and post content on their mobile devices. _____

Which choice completes the text so that it conforms to the conventions of Standard English?

- | | |
|--|---|
| A) Regardless of what platform they're on, | B) Regardless of what platform their on, they |
| C) Regardless, of what platform they're on they | D) Regardless of what platform they are on; they |

20

For the duration of the expedition, Commerson and Baret were aboard two different ships called the Boudeuse and the Zélie.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) either scientists'
- B) elder scientists'
- C) each scientists'
- D) exact scientists'

21

Sweden's suggested new policies during the Great Depression came with a price tag. In 1934, Sweden became the first country to fully recover from the Depression.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) the city of Rio de Janeiro, Brazil.
- B) the city of Rio de Janeiro Brazil.
- C) the city, of Rio de Janeiro Brazil.
- D) the city of Rio de Janeiro, Brazil

22

The committee had strong evidence supporting the new environmental policy. _____ the vocal opposition from industry lobbyists, the committee voted unanimously to approve the measure.

Which choice completes the text with the most logical transition?

- A) Despite
- B) By
- C) For
- D) With

23

Electric vehicles have become increasingly affordable in recent years. _____, the number of public charging stations has expanded dramatically, making long-distance travel more practical for EV owners.

Which choice completes the text with the most logical transition?

- A) Whereas
- B) Since
- C) Moreover
- D) Because

24

The introduction of penicillin in the 1940s revolutionized medicine by providing an effective treatment for bacterial infections. _____, many diseases that had previously been fatal became easily treatable.

Which choice completes the text with the most logical transition?

- A)** thus **B)** so
C) once **D)** while

25

While conducting research, a student took these notes:

- In addition to the well-known IQ (Intelligence Quotient), each person also has an AQ (Adversity Quotient).
- AQ is a measure of how well people bounce back from setbacks.
- IQ is focused on intelligence and may not give as complete a picture.

The student wants to introduce the concept of AQ to an audience already familiar with IQ. Which choice most effectively uses relevant information from the notes?

- A)** In contrast to IQ, which focuses on intelligence, AQ examines personal and social characteristics most important to navigating difficulty.
- B)** People with higher AQ are more resilient to setbacks, which also goes along with having a high IQ.
- C)** Unlike IQ, AQ is less focused on intellectual metrics and more on personal success.
- D)** Between IQ and AQ, the latter is more important to academic achievement.

26

While researching a topic, a student has taken the following notes:

- Deontologists argue that people should follow universal moral laws.
- Deontologists argue that people's actions should be dictated by moral laws even if the costs to humanity outweigh the benefits.

The student wants to give an example of an argument that would be disproved by a deontologist. Which choice most effectively uses relevant information from the notes?

- A)** A politician lies to secure higher office but implements popular policies when elected.
- B)** A teacher strongly promotes character education in their classroom.
- C)** A computer programmer creates a new programming language.
- D)** A mathematician makes a calculator error resulting in a bridge collapse.

While researching a topic, a student has taken the following notes:

- Working-class families will continue to buy only in neighborhoods where they can afford homes.
- As home prices rise, the gap between high- and low-income families expands.

Which choice most effectively uses relevant information from the notes?

- | | |
|--|--|
| A) Sewer sludge can potentially be turned into renewable biofuels. | B) Decrease fertilizer waste by using a companion planting method. |
| C) When two companion plants are grown near each other, they both become healthier. | D) As home prices increase, working-class families will only be able to buy in more affordable neighborhoods, widening the gap. |

Answer Key — Module 1: Reading and Writing

1 D	2 C	3 A	4 C	5 D	6 C	7 D	8 C	9 A
10 A	11 C	12 B	13 B	14 B	15 A	16 A	17 C	18 B
19 A	20 B	21 C	22 C	23 A	24 B	25 B	26 D	27 D

Answer Key — Module 2: Reading and Writing

1 D	2 A	3 B	4 C	5 D	6 B	7 A	8 B	9 A
10 C	11 D	12 C	13 B	14 A	15 D	16 A	17 B	18 C
19 A	20 A	21 A	22 A	23 C	24 A	25 C	26 A	27 D
